Garret Wassermann

has successfully completed the online, non-credit Specialization

Learn to Code with Ruby

Congratulations on completing the "Learn to Code with Ruby" course! You've embarked on a transformative journey, starting with installation on various OS and mastering Ruby's object-oriented principles, variables, data types, and control structures. Through practical exercises simulating real-world coding, you've honed problem-solving and critical thinking skills. This course has laid a solid foundation for web development with Ruby on Rails, covering string, number, Boolean, array, and hash manipulation, as well as advanced topics like blocks, procs, lambdas, and object-oriented programming with classes and modules. Well done!
